NO DISPOSITION TO BRING ABOUT A BREAK  
IN NEGOTIATIONS BUT BOTH SIDES STAND FIRMSECRETARY WILSON MEETS THE MINE

IN AFTERNOON SESSION

## ONLY NINE DAYS TO AVERT STRIKE

WASHINGTON, Oct. 22—Coal miners and operators today went into the second day of the conference apparently as far apart as ever on wages and hours. Indications were that neither side is going to compromise.

Secretary Wilson and other officials hoping to avert a soft coal strike set for November 1, were encouraged by two features of the conference thus far. The first is that neither the miners nor operators have shown any real disposition to bring about a break in the negotiations. While both went into the meeting yesterday declaring they would not change their positions and indicating no hope for conciliation both have shown themselves willing to talk things over.

The second encouraging feature is that both sides have ceased issuing statements charging each other with profiteering and of contract breaking.

WASHINGTON, Oct. 22—Secretary of Labor Wilson was in conference with coal operators for nearly two hours today. The miners were excluded from this meeting. Wilson was to meet with the miners delegates alone at 2:30 today.

NINE MEN HURT IN CLASH BETWEEN  
STEEL STRIKE BREAKERS AND PICKETS

YOUNGSTOWN, Oct. 22—Eight persons were shot and stabbed here early today in a clash between alleged strike breakers and union pickets. Five negroes were arrested. Four of them were armed with new revolvers, the police say. Trouble developed when pickets shouted at the negroes and asked them if they were going to work. It was said that several negroes drew revolvers and began shooting at the pickets seriously wounding two, and inflicting slight wounds on several others. Knives were brought into play on both sides.

COMMITTEE DECIDES ALLIED POWERS  
MUST ACCEPT TREATY PRESERVATIONS

WASHINGTON, Oct. 22—Reservations of the peace treaty will have to be accepted by the other Allied powers, the Senate Foreign Relations committee decided today. The vote was taken early in the special meeting of the committee. Senator McCumber, Republican of North Dakota, voted with the Democratic members and Shields, Tennessee, Democrat, voted with the Republicans.

SECRETARY WILSON'S PLEA FALLS  
ON DEAF EARS: DEADLOCK CONTINUES

WASHINGTON, Oct. 21—All attempts of the operators, said no definite conclusion had been reached when adjournment was taken late this afternoon and Mr. Lewis declared the attitude of the miners was unchanged. This means a continuation of the deadlock which has existed for some time. In the meantime the nation is one day nearer the general strike, which is slated to begin November 1st.

The operators and John L. Lewis, president of the United Mine Workers of America and other leaders of the union, along with Secretary Wilson were in session practically all day. Thomas T. Brewster, head of

THE POLICE  
REPUBLICANS  
HOLD BOOSTER

Slashing of Citizen, Blowing of Safe And Attempt To Blow Up House Puzzles

NO CLUE TO PERPETRATORS ENTHUSIASM IS RAMPANT

DUBOIS, Oct. 21.—An aftermath of the attempted highway robbery on the East Side on Sunday evening as reported yesterday morning in the Courier, one of the boldest and most dastardly I. W. W. crimes was almost carried out against John E. DuBois. The safe in the general office of Mr. DuBois was blown up and twelve sticks of dynamite were placed near the front porch of the DuBois mansion, all primed and ready for firing. Fortunately none of the dynamite went off.

The entire police force was called out early yesterday morning to work in the case, but no clue of a tangible nature was secured.

The placing of the dynamite and the blowing of the safe were undoubtedly committed after the attack made upon Alfred Engell at about 9 o'clock Sunday evening. As told yesterday morning Mr. Engell had gone to the East Side for the purpose of seeing a doctor. When coming along near the DuBois mansion he was accosted by a man wearing a long black macintosh. The man asked him where he home of Mr. DuBois was and as Mr. Engell was going directly past he told the stranger to come along. At the entrance to the Mansion Mr. Engell told the stranger that Mr. DuBois lived there. Then the stranger demanded some money. Mr. Engell told him he did not have any except change for street car fare. Without warning the stranger drew a knife and started to slash. One slash went down along Mr. Engell's left side and would have reached the flesh had it not been for a heavy overcoat and a bundle of letters in an inside pocket. Engell concluded that it was time to get away and he started to run. As he turned the knife was again brought down, catching the man on the shoulder. Assistant Chief Morris was notified at once by Mr. Engell, who gave a meager description of his assailant and at the same time stated that he appeared to have a bundle under one arm and there was a string hanging out that looked like a fuse. This information in connection with the man's desire to know where Mr. DuBois lived, aroused suspicion and Mr. Morris immediately notified Mr. DuBois, telling him to be on the lookout. Officer Kellner, who patrols the Third ward, was also called and given instructions by the assistant chief to put in the entire night between the general office and Mr. DuBois' home. In spite of these precautions the dynamite was planted and the safe blown at the general office.

It is the opinion of the police who investigated yesterday that the assailant of Mr. Engell is undoubtedly the perpetrator of the two acts of violence but that he had assistance. The job on the safe was not performed by amateurs, as all evidence pointed to the would-be robbers knowing just how to pull a job of this character. At that they did not succeed in blowing the safe so that they could get at the contents. The entrance to the general office was secured through a rear window and the fact that it was rather difficult to get into the window leads to the belief that more than one man was working on the job. It was necessary to pass through the window, the quilt rag carpet and other things used in the job. The quilt and carpets were first soaked in water and then wrapped around the safe. After charges of nitro-glycerin had

been placed. The charges failed to do anything other than damage the door. No report of the explosion was heard in the neighborhood, except by one woman who stated that she thought she heard a muffled explosion about 11 o'clock. But this was just about the time that Assistant Police Morris, Detective Lowry and Jack Jones were scouring the neighborhood for traces of the assailant of Mr. Engell. No trace of the dynamite planting and the blowing of the safe was discovered until yesterday morning when the office was opened.

That Clearfield Republicans are ready to get on their working harness from now until November 4th, was evidenced last evening by the attendance and feeling at the meeting of the borough vigilance committee. About seventy workers and well wishers to the Republican ticket were present and none hesitated to state his views, other suggestions and speak on the importance of getting behind the whole ticket as nominated at the recent primaries.

Chairman A. Roy Chase called this assemblage to order at the appointed hour and in a well worded short address stated the purpose of the meeting and warned those present against over confidence in the result of the election because of the large Republican registration and the preponderance of sentiment for the Republican nominees. The ward chairmen each in turn gave a report of the situation in their wards and all reported that so far as Clearfield is concerned there can be no doubt of where the "old town" will stand on November 4th.

An opportunity was given to practically every one present to express their views and it developed that owing to the general dissatisfaction over national affairs the majority of Republicans are going to vote straight leaving out all personalities. It was reported from all over the county there is a feeling that the Democratic administration must be rebuked for the high handed manner in which it is conducting the business of the nation. The Republicans are not alone in this feeling as it appears that thousands of Democrats right here in the county are fully aware of the situation brought about by those whom the administration has seen fit to furnish in this section of the state. It appears that Independent thinking Democrats are going to help roll up a majority for the Republican candidate this year.

Speakers dwelt on the coming presidential election and pointed out that the election of even one Democrat on the ticket of this fall would give the administration leaders a foothold in the county. Thinking Democrats are invited to help put the job holders under the sod on November 4th and they are going to accept the invitation.

Indicative of the enthusiasm and determination of those present at the meeting was the free will offering which was taken up to help defray campaign expenses. A substantial amount was taken up all paid in cash. These fellows are backing up their conviction with cash. Candidates Rumberger, Ralston and Chase were present and each made a little talk.

During the next week a thorough organization will be perfected in the borough as a result of which Clearfield Borough will be found in the Re-

## DuBois Committee Meets

One of the most enthusiastic meetings ever held in DuBois by the vigilance committee took place last evening at the country rooms. There was a good attendance when Chairman G. M. Alcorn called the meeting to order.

Among the speakers were T. R. Weiner, Jesse Dale A. Donaldson, "Pete" Sutter, Jerry Richardson, J. H. Heiges, G. M. Alcorn, G. A. Lukehart, U. S. N. Crouse A. J. Haag, and others spoke during the course of the evening. One of the strongest addresses of the evening as given by G. A. Lukehart who is now engaged in his 33rd campaign in DuBois, a man who has always stood by Republican principles and advocates the voting of the Republican ticket. Mr. Lukehart touched on many phases of the present election and pointed out its importance in view for the presidential election of next year. He advocated standing by the ticket and referred to the efforts that are being made by the evening newspaper to down Mayor Haag. He stated that it was making votes for Mr. Haag and there was murmured assent all over the room.

It was the sense of those present that a resolution be drawn up to the effect that the Republicans of DuBois are solidly behind the party ticket this fall and the chairman was instructed to appoint a resolution committee. He named G. A. Lukehart, P. Richardson and W. B. Ross, who prepared the resolutions.

It was decided to hold a big Republican meeting on October 30, at which time all persons will be invited to be present. There will be no parade or burrah about the meeting, but it will be a discussion of the campaign, with a view of getting out the vote.

The meeting was one provocative of the best of feeling and indicative strongly that harmony prevails within the ranks of the Republican party in DuBois and that the Republican candidates will be strongly supported throughout.

## Railroad Conductors To Press Demands For Wage Increase Along With Many Others

## WILSON LETTER MAY BE READ

WASHINGTON, Oct. 22—President Wilson today immediately after awaking sought information on the state of affairs in the national industrial conference, it was learned at the White House today. Secretary Tumulty telephoned Secretary Wilson and obtained a full report from him. The President, it was stated, will keep in close touch with the proceedings in order to obtain a solution of the problem by all the means in his power. If the sessions end now conditions will be worse than if the conference never had been begun. In the opinion of administration officials radicalism has been strengthened. At the morning session delegates were told that November 1 would find one million men out on strike.

Railroad conductors are planning to resume their demands for a wage adjustment about November 1. The seriousness of the situation will be emphasized at the conference in a letter from President Wilson delivered yesterday to Secretary Lane, chairman. Lane did not read the message yesterday. The letter was not to be communicated to the conference unless necessary.

It was suggested by Secretary Lane today that the conference adjourn for a week or ten days to give the committee time to prepare the complex problems for a settlement of the industrial unrest.

## PRESIDENT SIGNS BILLS

WASHINGTON, Oct. 22—President Wilson signed seven bills today it was learned at the White House. Secretary Tumulty was to announce later what bills were signed.

PUBLIC GROUP VOTES WITH CAPITAL  
ON MAIN ISSUES AT CONFERENCE

WASHINGTON, Oct. 21—The labor group in the industrial conference was decisively defeated today on the two vital issues for which it has been fighting.

These two issues were the Russell-Endicott resolution recognizing the right of wage earners to bargain collectively through representatives of their own choosing and the Gompers resolution calling for appointment of a committee to settle the steel strike.

Both the employers and the public group voted against labor on these two resolutions, bringing in a substantial majority for the employers. Thus the conference is virtually back to where it started two weeks ago.

Whether the labor group will continue to participate in the conference after their defeat in the measure they deem most vital is a question that the labor group will settle tomorrow morning. A number of the members expressed the sentiment that having failed to secure recognition of the right set forth in the Russell-Endicott resolution, there was nothing to be expected from the conference.

Labor's position was set forth by Mr. Gompers who warned the employers' group that defeat of the Russell-Endicott resolution by organized labor would result in the employers having to cope with the radical forces.

Mr. Gompers said that the employers would come to rue the day on which they voted against organized labor and asserted that the employers would never succeed in destroying the organized labor movement.

The election of a commissioner and a county auditor is conceded to the Democrats.

Wonder would the immediate appointment of a Clearfield postmaster have any effect on the vote at the general election? The Post Office department very wisely sees fit to postpone the actual naming of the next postmaster until after the November election but the majority of Democrats are wise to who it is going to be. Of course they are all satisfied. Nit.

NEW YORK, Oct. 22—Official calculation of the flying time of Lieut. R. W. Maynard in the trans-continental air derby was received from the air service department at Washington by the American Flyers club today eliminating him from the first place. His official flying time in the race was 69 hours, 3 minutes, 40 1-2 seconds. This includes 18 hours lost because of an accident of the east bound trip. The official time of J. O. Donaldson, second in the race was 19 hours, 56 minutes and 11 seconds.

**FULL-CROP YIELD OBTAINED**

Sufficient Fertilization, Pure Seed and Careful Cultivation Are of Importance.

There are three agents that are sometimes neglected but through which the full-crop yield can be obtained. They are sufficient fertilization, pure seed and careful cultivation. The proper use of fertilizer will make the stalks and stems stronger and thus more impervious to the attacks of vegetable parasites or the sprouting of insects. It will give weight, color and size to the fruit and materially hasten maturity.

**AN OLD RECIPE TO DARKEN HAIR**

Common garden Sage and Sulphur makes streaked, faded or gray hair dark and youthful at once.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and trouble some.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe, improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking on small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

**Not a Bite of  
Breakfast Until  
You Drink Water**

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind incombustible ashes, so the food and drink taken day after day leaves in the alimentary canal indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomainelike poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before breakfast each morning drink a glass of hot water with limestone phosphate in it to wash out of the bowels the previous day's poisons and toxins, and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

## NEWS OF OUR NEIGHBORS CURWENSVILLE

J. S. McCauley, who resides not far from town handed to us some old documents which he found in dismantling an old house. One is a half sheet of a small newspaper of the date of 1794. The sheet contains a long article on the war between France and Spain; also mentions the arrival at Hampton Roads of six war vessels of France, carrying guns in aggregate 274; tells of these ships capturing four prizes, a frigate and a sloop of war from the East Indies, which had been dispatched expressly with the news of the capture of Pondicherry, and had on board the treasure and trophies taken there; they also captured a ship in company with the above who had on board (besides other property) \$87,000 dollars; they were sent to France under a sufficient convoy. The fourth was a merchantman, taken near this coast, and whose arrival is hourly looked for. The information received by this fleet is that the internal affairs of France are in a regular and prosperous train; that the army of Pyrenees, after several successful battles had entered Spain and conquered the whole of Catalonia except Barcelona. And so the article goes on recounting the successes of the French armies in their many European conquests. The object the fleet had in coming to the United States was the bringing the new minister appointed to succeed Mr. Genet, who had been recalled and also consuls for the different districts of the United States. Saturday being the 22d day of February and the 63d birthday of our beloved president, the managers of the city dancing assembly gave a ball in the evening. They were honored with the company of the President and Mrs. Washington, several of the foreign ministers, a number of members of Congress, the secretaries of the treasury and of war, the governors of the state and of the western territories, and the most brilliant display of female beauty, perhaps, ever exhibited in the city. The attentiveness of all present and perfectly congenial with the happy occasion, the paper so states. The following toasts were drunk: the last after the President and Mrs. Washington had left the room.

The day—may it always be illustrations in the annals of time, for the civil and military virtues it gave birth to.

May the hand of liberty always continue the brow of patriotism.

May the light of liberty illuminate the recesses of despotism, and as the world be free.

May our Republican virtues in peace, equal our military exertions in war.

May the fetters of slavery be broken on the head of tyranny.

The Fair of America—may they be protected and embraced by the arms of Freedom.

The United States the Colony of the world the asylum of unmerited distress and persecuted virtue.

May the turbulence of faction be trod under the feet of Liberty.

The President of the United States—long may he live an example to magistrates and a blessing to his country.

The paper goes on and gives a synopsis of the court news the doings of Congress and House of Representatives and touches on laws that are under vogue in both houses. The advertisements are rather plentiful and some unique in display and character. A good many runaway slaves are advertised and a suitable reward offered for their return to the owners. Sales of public lands are also advertised extensively.

### Hunting Eye Is Arrested

By R. S. ALEXANDER  
Hunting Eye wanted a horse. He was tired waiting. So one morning when he saw a horse grazing in a field, he went over and made a jump for it. He had not gone far when he saw a man on horseback and rode away. He had not gone far when he saw a man on horseback and rode away. He had not gone far when he saw a man on horseback and rode away.

with him to his house. They were some distance down the road before the Indian boy got courage to ask his captor.

"What is jail?"  
"Jail is a place where we keep prisoners."

"Why are you taking me there?"  
"Because you have broken the law. I am the sheriff of this county, and when anyone breaks the law I arrest him and put him in jail."

"Now the boy from the North Woods knew that the law was on his side, but he did not know that a man could be against any of its rules, nor did he understand who the sheriff was or what a county was."

"Well, you know he was a little States is divided into thirty-one states and each state is divided into counties. The number of counties in a state varies, and so does the size of the county. The county officers are the sheriff, the clerk of the county and the treasurer of the county and take care of the affairs of the county."

"Here we are at the jail. Put your hands up and in a couple of minutes I'll bring you up before the judge."

**QUESTIONS**  
1. What do you think of the law?  
2. Is an arrested man always put in jail?  
3. Who chooses the sheriff for a county?  
4. If Hunting Eye had stolen the horse, what would you have arrested him for?  
5. Can anyone besides a policeman or a sheriff arrest a criminal?  
6. What is the policeman's or sheriff's duty to do?

### Nature's Airplane

By ADOLPH LELLE BEARD

Here is something to talk about and talk about when you are feeling bored. Men have made models of it, but it is not first, in some form, made by Mother Nature, and it is Mother Nature's wild children who have a human being's first lesson in craftsmanship. The four-legged animals, the birds, fish and insects, have taught men how to build a plane, to use clay and cement to a plane, to use clay and cement to a plane, to use clay and cement to a plane.

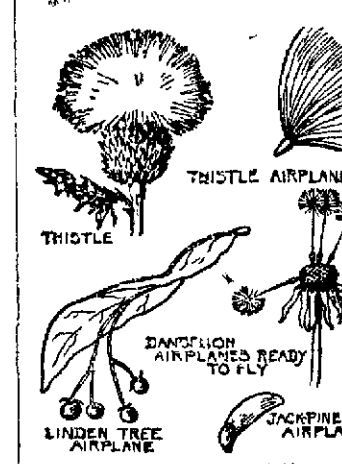

Our birds are fashioned on the plan of a fish and our wonderful airplanes on the structure of a bird.

Mother Nature has other airplanes besides the flying creatures—the birds and insects—and these are the plants. Their roots are the wings and their leaves are the propellers. They settle down to start colonies of their species in new places.

The THISTLE sends out such airplanes when its purple or white blossoms turn to a downy ball. You will find plenty of these balls in the fall, and if you pull one apart you will see that it is composed of numerous seeds to which are attached tufts of feathery hairs. It is these hairs that take the place of wings and give the seed the buoyancy that allows it to be lifted by the wind and carried through the air.

THE Dandelions manufacture the same style of airplanes, and when you blow a dandelion ball to tell the time of day you release its airplanes and they go soaring away, just where you never know. Their plants, too, that float out when their seeds ripen, construct these fairy-like airplanes.

Then there are the trees that throw off winged seeds. If there is a breeze they sail away on it, if not they come spinning down as a man-made airplane sometimes does when something goes wrong. The LINDEN or basswood, tree develops airplanes that are wonderful spinners, whirling as rapidly as a top as they drop from the upper branches.

### IF BACKACHE OR KIDNEYS BOTHER

Eat less meat and take a glass of Salts to flush out Kidneys—Drink plenty water.

Une acid meat excites the kidneys, they become overworked, get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy, the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's poisonous waste or you will be a real sick person, shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat drink lots of water, also get from any pharmacist four ounces of Jad Salts, take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is expensive cannot be put in a jug, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

### BRADDOCK RIOTERS ARRESTED

PITTSBURGH—A score of men, nearly all foreigners, were under arrest in Braddock near here today following the sporadic fighting in that district yesterday, in which one man was shot and a score injured. Order was restored late last night by state police. The fighting occurred in the vicinity of the steel mills of the Carnegie Steel Company. According to the police workers who have been housed in the mills, venturing outside for the first time since the steel strike began. Just a few days ago, special police who were guarding the men, were released from duty and local police were unable to cope with the situation.

NO DISPOSITION TO BRING ABOUT A BREAK  
IN NEGOTIATIONS BUT BOTH SIDES STAND FIRMSECRETARY WILSON MEETS THE MINE  
OWNERS AND WORKERS SEPARATELY  
IN AFTERNOON SESSION

## ONLY NINE DAYS TO AVERT STRIKE

WASHINGTON, Oct. 22—Coal miners and operators today went into the second day of the conference apparently as far apart as ever on wages and hours. Indications were that neither side is going to compromise.

Secretary Wilson and other officials hoping to avert a soft coal strike set for November 1, were encouraged by two features of the conference thus far. The first is that neither the miners nor operators have shown any real disposition to bring about a break in the negotiations. While both went into the meeting yesterday declaring they would not change their positions and indicating no hope for conciliation both have shown themselves willing to talk things over.

The second encouraging feature is that both sides have ceased issuing statements charging each other with profiteering and of contract breaking.

WASHINGTON, Oct. 22—Secretary of Labor Wilson was in conference with coal operators for nearly two hours today. The miners were excluded from this meeting. Wilson was to meet with the miners delegates alone at 2:30 today.

NINE MEN HURT IN CLASH BETWEEN  
STEEL STRIKE BREAKERS AND PICKETS

YOUNGSTOWN, Oct. 22—Eight persons were shot and stabbed here early today in a clash between alleged strike breakers and union pickets. Five negroes were arrested. Four of them were armed with new revolvers, the police say. Trouble developed when pickets shouted at the negroes and asked them if they were going to work. It was said that several negroes drew revolvers and began shooting at the pickets seriously wounding two, and inflicting slight wounds on several others. Knives were brought into play on both sides.

COMMITTEE DECIDES ALLIED POWERS  
MUST ACCEPT TREATY PRESERVATIONS

WASHINGTON, Oct. 22—Reservations of the peace treaty will have to be accepted by the other Allied powers, the Senate Foreign Relations committee decided today. The vote was taken early in the special meeting of the committee. Senator McCumber, Republican of North Dakota, voted with the Democratic members and Shields, Tennessee, Democrat, voted with the Republicans.

SECRETARY WILSON'S PLEA FALLS  
ON DEAF EARS: DEADLOCK CONTINUES

WASHINGTON, Oct. 21—All attempts of the operators, said no definite conclusion had been reached when adjournment was taken late this afternoon and Mr. Lewis declared the attitude of the miners was unchanged. This means a continuation of the deadlock which has existed for some time. In the meantime the nation is one day nearer the general strike, which is slated to begin November 1st.

The operators and John L. Lewis, president of the United Mine Workers of America and other leaders of the union, along with Secretary Wilson were in session practically all day. Thomas T. Brewster, head of

THE POLICE  
REPUBLICANS  
HOLD BOOSTER  
MEETINGS

Slashing of Citizen, Blowing of Safe And Attempt To Blow Up House Puzzles  
Gleaned And Dubois Are Certain To Roll Up Big Majority For Ticket

NO CLUE TO PERPETRATORS ENTHUSIASM IS RAMPANT

DUBOIS, Oct. 21.—An aftermath of the attempted highway robbery on the East Side on Sunday evening as reported yesterday morning in the Courier, one of the boldest and most dastardly I. W. W. crimes was almost carried out against John E. DuBois. The safe in the general office of Mr. DuBois was blown up and twelve sticks of dynamite were placed near the front porch of the DuBois mansion, all primed and ready for firing. Fortunately none of the dynamite went off.

The entire police force was called out early yesterday morning to work in the case, but no clue of a tangible nature was secured.

The placing of the dynamite and the blowing of the safe were undoubtedly committed after the attack made upon Alfred Engell at about 9 o'clock Sunday evening. As told yesterday morning Mr. Engell had gone to the East Side for the purpose of seeing a doctor. When coming along near the DuBois mansion he was accosted by a man wearing a long black macintosh. The man asked him where he home of Mr. DuBois was and as Mr. Engell was going directly past he told the stranger to come along. At the entrance to the Mansion Mr. Engell told the stranger that Mr. DuBois lived there. Then the stranger demanded some money. Mr. Engell told him he did not have any except change for street car fare. Without warning the stranger drew a knife and started to slash. One slash went down along Mr. Engell's left side and would have reached the flesh had it not been for a heavy overcoat and a bundle of letters in an inside pocket. Engell concluded that it was time to get away and he started to run. As he turned the knife was again brought down, catching the man on the shoulder. Assistant Chief Morris was notified at once by Mr. Engell, who gave a meager description of his assailant and at the same time stated that he appeared to have a bundle under one arm and there was a string hanging out that looked like a fuse. This information in connection with the man's desire to know where Mr. DuBois lived, aroused suspicion and Mr. Morris immediately notified Mr. DuBois, telling him to be on the lookout. Officer Kellner, who patrols the Third ward, was also called and given instructions by the assistant chief to put in the entire night between the general office and Mr. DuBois' home. In spite of these precautions the dynamite was planted and the safe blown at the general office.

It is the opinion of the police who investigated yesterday that the assailant of Mr. Engell is undoubtedly the perpetrator of the two acts of violence but that he had assistance. The job on the safe was not performed by amateurs, as all evidence pointed to the would-be robbers knowing just how to pull a job of this character. At that they did not succeed in blowing the safe so that they could get at the contents. The entrance to the general office was secured through a rear window and the fact that it was rather difficult to get into the window leads to the belief that more than one man was working on the job. It was necessary to pass through the window, the quilt rag carpet and other things used in the job. The quilt and carpets were first soaked in water and then wrapped around the safe. After charges of nitro-glycerin had

been placed. The charges failed to do anything other than damage the door. No report of the explosion was heard in the neighborhood, except by one woman who stated that she thought she heard a muffled explosion about 11 o'clock. But this was just about the time that Assistant Police Morris, Detective Lowry and Jack Jones were scouring the neighborhood for traces of the assailant of Mr. Engell. No trace of the dynamite planting and the blowing of the safe was discovered until yesterday morning when the office was opened.

That Clearfield Republicans are ready to get on their working harness from now until November 4th, was evidenced last evening by the attendance and feeling at the meeting of the borough vigilance committee. About seventy workers and well wishers to the Republican ticket were present and none hesitated to state his views, other suggestions and speak on the importance of getting behind the whole ticket as nominated at the recent primaries.

Chairman A. Roy Chase called this assemblage to order at the appointed hour and in a well worded short address stated the purpose of the meeting and warned those present against over confidence in the result of the election because of the large Republican registration and the preponderance of sentiment for the Republican nominees. The ward chairmen each in turn gave a report of the situation in their wards and all reported that so far as Clearfield is concerned there can be no doubt of where the "old town" will stand on November 4th.

An opportunity was given to practically every one present to express their views and it developed that owing to the general dissatisfaction over national affairs the majority of Republicans are going to vote straight leaving out all personalities. It was reported from all over the county there is a feeling that the Democratic administration must be rebuked for the high handed manner in which it is conducting the business of the nation. The Republicans are not alone in this feeling as it appears that thousands of Democrats right here in the county are fully aware of the situation brought about by those whom the administration has seen fit to furnish in this section of the state. It appears that Independent thinking Democrats are going to help roll up a majority for the Republican candidate this year.

Speakers dwelt on the coming presidential election and pointed out that the election of even one Democrat on the ticket of this fall would give the administration leaders a foothold in the county. Thinking Democrats are invited to help put the job holders under the sod on November 4th and they are going to accept the invitation.

Indicative of the enthusiasm and determination of those present at the meeting was the free will offering which was taken up to help defray campaign expenses. A substantial amount was taken up all paid in cash. These fellows are backing up their conviction with cash. Candidates Rumberger, Ralston and Chase were present and each made a little talk.

During the next week a thorough organization will be perfected in the borough as a result of which Clearfield Borough will be found in the Republican column.

## DuBois Committee Meets

One of the most enthusiastic meetings ever held in DuBois by the publican Vigilance Committee took place last evening at the country rooms. There was a good attendance when Chairman G. M. Alcorn called the meeting to order.

Among the speakers were T. R. Weiner, Jesse Dale A. Donaldson, "Pete" Sutter, Jerry Richardson, J. H. Hoiges, G. M. Alcorn, G. A. Lukehart, U. S. N. Crouse A. J. Haag, and others spoke during the course of the evening. One of the strongest addresses of the evening as given by G. A. Lukehart who is now engaged in his 33rd campaign in DuBois, a man who has always stood by Republican principles and advocates the voting of the Republican ticket. Mr. Lukehart touched on many phases of the present election and pointed out its importance in view for the presidential election of next year. He advocated standing by the ticket and referred to the efforts that are being made by the evening newspaper to down Mayor Haag. He stated that it was making votes for Mr. Haag and there was murmured assent all over the room.

It was the sense of those present that a resolution be drawn up to the effect that the Republicans of DuBois are solidly behind the party ticket this fall and the chairman was instructed to appoint a resolution committee. He named G. A. Lukehart, P. Richardson and W. B. Ross, who prepared the resolutions.

It was decided to hold a big Republican meeting on October 30, at which time all persons will be invited to be present. There will be no parade or burrah about the meeting, but it will be a discussion of the campaign, with a view of getting out the vote.

The meeting was one provocative of the best of feeling and indicative strongly that harmony prevails within the ranks of the Republican party in DuBois and that the Republican candidates will be strongly supported throughout.

## STOCKS SHOW STRENGTH

## Railroad Conductors To Press Demands For Wage Increase Along With Many Others

## WILSON LETTER MAY BE READ

WASHINGTON, Oct. 22—President Wilson today immediately after awaking sought information on the state of affairs in the national industrial conference, it was learned at the White House today. Secretary Tumulty telephoned Secretary Wilson and obtained a full report from him. The President, it was stated, will keep in close touch with the proceedings in order to obtain a solution of the problem by all the means in his power. If the sessions end now conditions will be worse than if the conference never had been begun. In the opinion of administration officials radicalism has been strengthened. At the morning session delegates were told that November 1 would find one million men out on strike.

Railroad conductors are planning to resume their demands for a wage adjustment about November 1. The seriousness of the situation will be emphasized at the conference in a letter from President Wilson delivered yesterday to Secretary Lane, chairman. Lane did not read the message yesterday. The letter was not to be communicated to the conference unless necessary.

It was suggested by Secretary Lane today that the conference adjourn for a week or ten days to give the committee time to prepare the complex problems for a solution of the industrial unrest.

## PRESIDENT SIGNS BILLS

WASHINGTON, Oct. 22—President Wilson signed several bills today it was learned at the White House. Secretary Tumulty was to announce later what bills were signed.

PUBLIC GROUP VOTES WITH CAPITAL  
ON MAIN ISSUES AT CONFERENCE

WASHINGTON, Oct. 21—The labor group in the industrial conference was decisively defeated today on the two vital issues for which it has been fighting.

These two issues were the Russell-Endicott resolution recognizing the right of wage earners to bargain collectively through representatives of their own choosing and the Gompers resolution calling for appointment of a committee to settle the steel strike.

Both the employers and the public group voted against labor on these two resolutions, bringing in a substantial vote for the Russell resolution on collective bargaining which was defeated.

Both the members of the employers and the labor group pressed for a decision today, with the result that every measure proposed was defeated. Thus the conference is virtually back to where it started two weeks ago.

Whether the labor group will continue to participate in the conference after their defeat in the measure they deem most vital is a question that the labor group will settle tomorrow morning. A number of the members expressed the sentiment that having failed to secure recognition of the right set forth in the Russell-Endicott resolution, there was nothing to be expected from the conference.

Labor's position was set forth by Mr. Gompers who warned the employers' group that defeat of the Russell resolution by organized labor would result in the employers having to cope with the radical forces.

Mr. Gompers said that the employers would come to rue the day on which they voted against organized labor and asserted that the employers would never succeed in destroying the organized labor movement.

The election of a commissioner and a county auditor is conceded to the Democrats.

Wonder would the immediate appointment of a Clearfield postmaster have any effect on the vote at the general election? The Post Office department very wisely sees fit to postpone the actual naming of the next postmaster until after the November election but the majority of Democrats are wise to who it is going to be. Of course they are all satisfied. Nit.

**LONGER LIFE**

Fifteen years has been added to the average human life by surgery and therapeutics since the Civil War.

Fifteen more years will be added to the human life by the elimination of liquor drinking and other vices.

When a man reaches sixty he is a greater asset to the nation than younger men, because of his mature judgment and experience.

The authority for these statements is Dr. William J. Mayo, noted surgeon of Rochester, Minn. He uttered them at the ninth annual congress of surgeons, in the ballroom of the Waldorf-Astoria Monday night.

**OFFICIAL TIME OF FLYERS ANNOUNCED**

NEW YORK, Oct. 22—Official calculation of the flying time of Lieut. B. W. Maynard in the trans-continental air derby was received from the air service department at Washington by the American Flyers club today eliminating him from the first place. His official flying time in the race was 69 hours, 3 minutes, 40 1-2 seconds. This includes 18 hours lost because of an accident of the east bound trip. The official time of J. O. Donaldson, second in the race was 19 hours, 56 minutes and 11 seconds.

**FULL-CROP YIELD OBTAINED**

Sufficient Fertilization, Pure Seed and Careful Cultivation Are of Importance.

There are three agents that are sometimes neglected but through which the full-crop yield can be obtained. They are sufficient fertilization, pure seed and careful cultivation. The proper use of fertilizer will make the stalks and stems stronger and thus more impervious to the attacks of vegetable parasites or the sprouting of insects. It will give weight, color and size to the fruit and materially hasten maturity.

**AN OLD RECIPE TO DARKEN HAIR**

Common garden Sage and Sulphur makes streaked, faded or gray hair dark and youthful at once.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and trouble some.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe, improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking on small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

**Not a Bite of Breakfast Until You Drink Water**

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind incombustible ashes, so the food and drink taken day after day leaves in the alimentary canal indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomainelike poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before breakfast each morning drink a glass of hot water with limestone phosphate in it to wash out of the bowels the previous day's poisons and toxins, and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

**A Friend in Time of Need**

There are times in the life of every housewife when help with the work of the household is necessary. Our laundry service is one to which you can turn for "first aid" during such times of need.

If you would take a holiday, call us up. If there is illness in the home and the invalid requires much of your attention, call us up. If you have guests for a few days, call us up. If you are going out of town and leaving hubby behind you, call us up.

At such times as these—in times of pleasure and in times of emergency—we are always glad to receive your family bundle and do your washing for you.

Ours is a laundry service in which you will find all that is best in cleanliness, in sterilization, and in the saving of clothes. Soft water and billowy suds for washing; steam heat that never scorches for ironing; delivery at a definite time—these are only a few of the services our washday helps us offer you.

## Suit Examples That Stylists Are Proud of

It is a pleasure to be able to offer suits of the character of these we have just taken out of their boxes, coming straight from one of the best of New York designing and tailoring artists.

They distinctly show the influence of the Paris ideas which are appearing in the exclusive New York Shops.

Many are for trimmed and while their style lines are a distinct characteristic, they of course have all the individuality that can be given by such beautiful cloths as silk duvetyn, lustrous, silvertip, bolivia, peach bloom, tricotine and velour de laine.

And need we say that many of these modes are enriched with fur—trimming of beaver, squirrel, nutria, Hudson seal and skunk.

The prices at \$15.00 to \$90.00 are unusually moderate.

## We Offer Royal Selections of Coat Styles

The section of coats is so unusually well stocked as to be thoroughly representative of the diversity of styles coming from the best New York designers.

We have many models for as little money as it is safe to pay, and we also have many models that are as high as it is necessary to price them, for such luxurious combinations of beautiful fabrics and fine furs.

There are exquisite Fall and Winter Coats of velour, chevrons, miltons, kersey, silvertone and silk plush. In the favored loose back effect, belted, high waist models, blouse and tailored models. Colors are reindeer, brown, taupe, green, Alpine, Burgundy, navy and black. Large collars of plush or self trimming. Exceptionally good values at \$16.50 to \$87.50

## New Yorks New Millinery for The Formal Occasion

Reflecting the latest hat types, we are placing on display and sale the hats with the wide side brims and the turn up fronts.

Hats with monkey fur and glycerined ostrich feather adorned in some cases with eop, blonde and breast feathers.

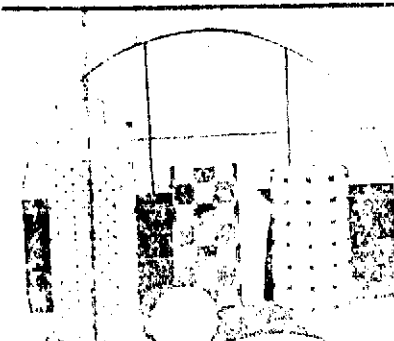

Our unusual moderate prices are on all these models—ready tomorrow \$8.50 up

## The Floors of The Home

The section of carpets, rugs, and linoleums is replete with weaves, patterns and colorings that appeal to the fastidious and that will always enhance the appearance of the home—for they have been created by designers who lead in the production of meritorious floor coverings.

This well equipped department has the patronage of a great many experienced buyers and we invite your business—knowing that you will do well here and be satisfied with the floor coverings we are privileged to send to your home.

## NEWS OF OUR NEIGHBORS CURWENSVILLE

J. S. McCauley, who resides not far from town handed to us some old documents which he found in dismantling an old house. One is a half sheet of a small newspaper of the date of 1794. The sheet contains a long article on the war between France and Spain; also mentions the arrival at Hampton Roads of six war vessels of France, carrying guns in aggregate 274; tells of these ships capturing four prizes, a frigate and a sloop of war from the East Indies, which had been dispatched expressly with the news of the capture of Pondicherry, and had on board the treasure and trophies taken there; they also captured a ship in company with the above who had on board (besides other property) \$87,000 dollars; they were sent to France under a sufficient convoy. The fourth was a merchantman, taken near this coast, and whose arrival is hourly looked for. The information received by this fleet is that the internal affairs of France are in a regular and prosperous train; that the army of Pyrenees, after several successful battles had entered Spain and conquered the whole of Catalonia except Barcelona. And so the article goes on recounting the successes of the French armies in their many European conquests. The object the fleet had in coming to the United States was the bringing the new minister appointed to succeed Mr. Genet, who had been recalled and also consuls for the different districts of the United States. Saturday being the 22d day of February and the 63d birthday of our beloved president, the managers of the city dancing assembly gave a ball in the evening. They were honored with the company of the President and Mrs. Washington, several of the foreign ministers, a number of members of Congress, the secretaries of the treasury and of war, the governors of the state and of the western territories, and the most brilliant display of female beauty, perhaps, ever exhibited in the city. The attentiveness of all present and perfectly congenial with the happy occasion, the paper so states. The following toasts were drunk: the last after the President and Mrs. Washington had left the room.

The day—may it always be illustrations in the annals of time, for the civil and military virtues it gave birth to.

May the hand of liberty always continue the brow of patriotism.

May the light of liberty illuminate the recesses of despotism, and as the world be free.

May our Republican virtues in peace, equal our military exertions in war.

May the fetters of slavery be broken on the head of tyranny.

The Fair of America—may they be protected and embraced by the arms of Freedom.

The United States the Colony of the world the asylum of unmerited distress and persecuted virtue.

May the turbulence of faction be trod under the feet of Liberty.

The President of the United States—long may he live an example to magistrates and a blessing to his country.

The paper goes on and gives a synopsis of the court news the doings of Congress and House of Representatives and touches on laws that are under vogue in both houses. The advertisements are rather plentiful and some unique in display and character. A good many runaway slaves are advertised and a suitable reward offered for their return to the owners. Sales of public lands are also advertised extensively.

# Ford

THE UNIVERSAL CAR

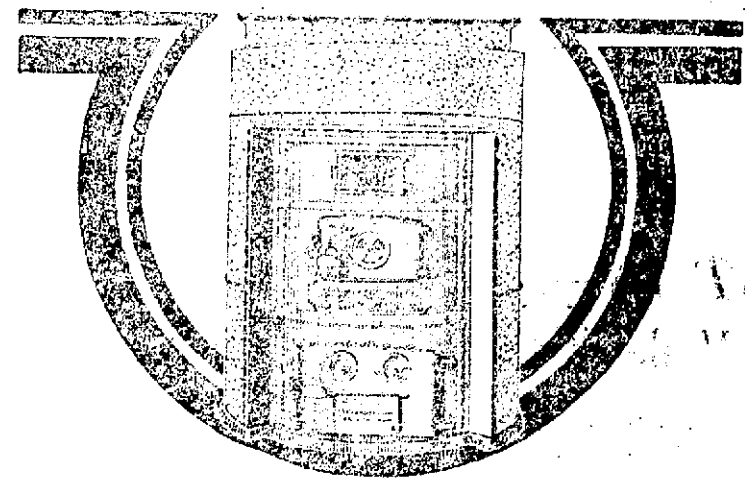

The Ford One Ton Truck may well be classed as an agricultural necessity, it fits into and fills so many wants on the farm. It is a reliable helper of farm burdens,

not only doing the work of several horses quicker and better than the horse, but does not "eat its head off" when not working. The aggressive

farmer has only to consider the possibilities of the Ford truck and he is ready to buy one. We judge this to be so from the way farmers are buying them. Truck Chassis \$590 f. o. b. Detroit.

### BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through taking them.

Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil. They act gently but firmly on the bowels, and liver, stimulating them to natural action, clearing the blood and purifying the entire system. They do that which calomel does, without any of the bad after effects. Take one or two every night for a week and note the pleasing effect. 10c and 25c a box.

### Hunting Eye Is Arrested

By R. S. ALEXANDER  
Hunting Eye wanted a horse. He was tired waiting. So one morning when he saw a horse grazing in a field, he went over and made a jump for it. He had not gone far when he saw a man on horseback and rode away. He had not gone far when he saw a man on horseback and rode away. He had not gone far when he saw a man on horseback and rode away.

with him to his house. They were some distance down the road before the Indian boy got courage to ask his captor.

"What is jail?"

"Jail is a place where we keep prisoners."

"Why are you taking me there?"

"Because you have broken the law. I am the sheriff of this county, and when anyone breaks the law I arrest him and put him in jail."

"Now the boy from the North Woods knew that the law was on his side, but he did not know that a horse was against any of its rules, nor did he understand who the sheriff was or what a county was."

"Well, you know he was a little States is divided into thirty-one states and each state is divided into counties. The number of counties in a state varies, and so does the size of the county officers are elected by the voters of the county and take care of the affairs of the county."

"Here we are at the jail. Put your hands up and in a couple of minutes I'll bring you up before the judge."

**QUESTIONS**  
1. What do you think of the law?  
2. Is an arrested man always put in jail?  
3. Who chooses the sheriff for a county?  
4. If Hunting Eye had stolen the horse, what would have happened to him?  
5. Can anyone besides a policeman or a sheriff arrest a criminal?  
6. What is the policeman's or sheriff's duty to do?

(Next week Hunting Eye is tried in court.)

### FAREWELL FOR RICHER FAMILY

Forty-one members of the Ladies Aid Society and Hope Circle Sunday School Class of the West Side M. E. Church met at the home of Mr. and Mrs. P. S. Richner and gave them a wonderful surprise and farewell party. They expect to leave Clearfield for Barboursville, Ohio, on Sunday.

The Ladies Aid presented Mrs. Richner with a beautiful quilt, which had been made by the ladies. Aid. It contained 550 names of her friends from Clearfield and surrounding community.

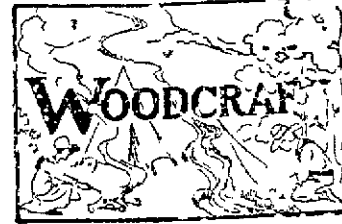

It was highly appreciated with many thanks by Mrs. Richner. A very delightful evening was spent, after which very nice refreshments were served. And wishing Mr. and Mrs. Richner success they returned to their many homes.

### Nature's Airplane

By ADOLPH LELLE BEARD

Here is something to talk about and talk about when you are feeling bored. Men have made models of it, but it is not first, in some form, made by Mother Nature, and it is Mother Nature's wild children who have a human being's first lesson in craftsmanship. The four-legged animals, the birds, fish and insects, have taught men how to build a plane, to use clay and cement to a plane, to use clay and cement to a plane, to use clay and cement to a plane.

Our birds are fashioned on the plan of a fish and our wonderful airplanes on the structure of a bird.

Mother Nature has other airplanes besides the flying creatures—the birds and insects—and these are the plants that rise to the air, sail long distances and then settle down to start new colonies of their species in new places.

The THISTLE sends out such airplanes when its purple or white blossoms turn to a downy ball. You will find plenty of these balls in the fall, and if you pull one apart you will see that it is composed of numerous seeds to which are attached tufts of feathery hairs. It is these hairs that take the place of wings and give the seed the buoyancy that allows it to be lifted by the wind and carried through the air.

THE Dandelions manufacture the same style of airplanes, and when you blow a dandelion ball to tell the time of day you release its airplanes and they go soaring away, just where you never know where their plants, too, that float out when their seeds ripen, construct these fairy-like airplanes.

Then there are the trees that throw off winged seeds. If there is a breeze they sail away on it, if not they come spinning down as a man-made airplane sometimes does when something goes wrong. The LINDEN or basswood, tree develops airplanes that are wonderful spinners, whirling as rapidly as a top as they drop from the upper branches.

### BRADDOCK RIOTERS ARRESTED

PITTSBURGH—A score of men, nearly all foreigners, were under arrest in Braddock near here today following the sporadic fighting in that district yesterday, in which one man was shot and a score injured. Order was restored late last night by state police. The fighting occurred in the vicinity of the steel mills of the Carnegie Steel Company. According to the police workers who have been housed in the mills, violence outside for the first time since the steel strike began. Just a few days ago, special police who were guarding the men, were released from duty and local police were unable to cope with the situation.

## Popular Appreciation

of the dependability of the Educator Shoe has created a demand for this shoe for all ages, from the cradle to the "grown-ups." The principle of "comfort first" together with the reasonable prices combines two logical reasons, why the EDUCATOR shoe is so popular.

In the Educator shoe much has been gained in comfort for children who are too young to voice their wants, but not too young to enjoy the comfort of this sensible shoe.

Included in our new shipment of Educator shoes for men are the

Ko-Ko calf, the Vic kid in russet brown ..... \$12.00  
Black vic kid ..... \$12.00  
Toney red calfskin, double sole ..... \$12.00  
Black calfskin, double sole ..... \$12.00

### Large Assortment

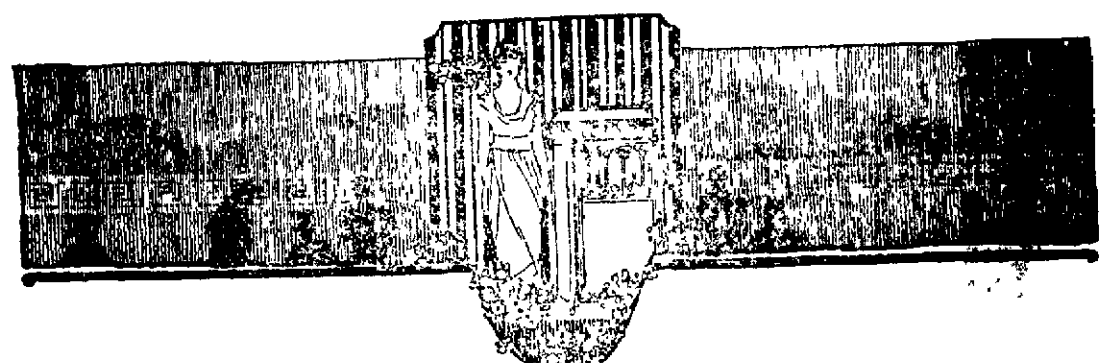

Other shoes for men in this new shipment include black and tan kid with round toe, good looking \$6.00 to \$9.00. Ladies' shoes, high tops, in black, tan and grey, with both the French and Military heels, from \$5.00 to \$12.00.

## So Human

---it amazed all Clearfield

SOME of your friends must have been in the huge audience which heard George Wilton Ballard in his Tone-Test recital at High School Auditorium. Ask these people about it. This is the astonishing discovery they made.

The keenest musical ear can not distinguish any difference between the voice of the living artist and the RE-CREATION of that voice by the, New Edison.

And does it not amaze you, too, that Mr. Edison has succeeded in producing an instrument that captures every subtle sweetness of the human voice---that gives you all the ear can give you of the art of the world's great artists. No other phonograph dares to make this direct comparison.

## The NEW EDISON

"The Phonograph With a Soul"

The New Edison alone can RE-CREATE music for you. Come in and hear it for yourself. Make the great discovery for yourself.

## SHEEDER MUSIC CO.
